ROBUST, FUNCTIONAL, FOR PROBLEM-FREE MECHANISMS WELCOME...

Our company started its activities in 2006 by designing mechanisms with the aim of continuous R&D in order to meet the renewal need of the furniture industry, especially in mechanism. Our company, which initially only worked on technical design and R&D, became a company in 2012 with the name of **ERHUN METAL VE FURNITURE AKSESUARLARI SAN.TC AŞ.**

Our company continues its activities with the latest technology machinery infrastructure, equipment and advanced production techniques in a total production area of 10.000 m2 in İnegöl Organized Industrial Zone.

ERHUN METAL AŞ has set out to meet the renewal, change and design needs of the sector and to be the solution partner of our manufacturers with its superior technical and design capabilities. ERHUN METAL AŞ has a mission of providing R&D support to the companies it cooperates with, beyond having a purely manufacturer identity.

ERHUN METAL AŞ's founding philosophy is to provide R&D support with a modern understanding of power union, while producing mechanism solutions that stand out with their long-lasting, non-deteriorating, rational design as well as their quality.

Our Mission; ERHUN METAL AŞ has always attached importance to education and science since its establishment. And with the philosophy that the biggest investment is investing in education and people, it sees its teams as its greatest wealth. The most valuable value for us is the understanding that we are a trained human being.

Our vision; To have a say in the furniture sector, firstly nationally and then globally, with its quality and innovative vision, and to become one of the leading companies that shape the furniture sector with the mechanisms we design.

*ERHUN METAL
MOB. VE AKS. SAN. VE TİC. A.Ş.*

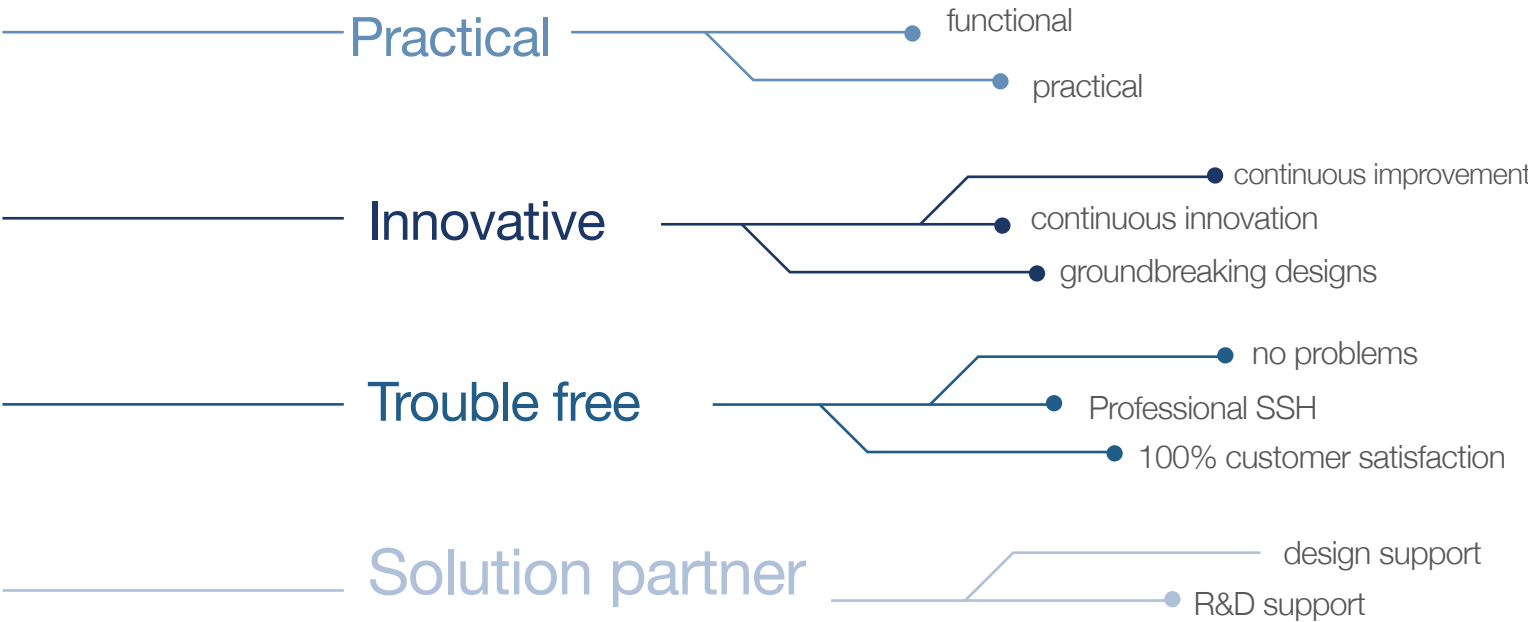

We first listened to you to learn about your expectations.

- "I want a practical but effective mechanism."
- "I want to make aesthetic designs."
- "I want to achieve long-lasting products."
- "I want it to be problem-free."

We have produced mechanisms that are problem-free, practical, aesthetic and long-lasting...

We set out to meet the renewal, change and design needs of the sector and to be the solution partner of our manufacturers with its superior design capability.

We reduced your costs, increased your sales...

"It is low cost, it is possible to have a sofa bed with the least material and labor, it is possible to become a bed with the use of sitting cushions."

"It is practical, it is possible to become a bed with an easy and practical move."

"It is aesthetic, it allows the sofa beds to be designed far more aesthetically, away from the sofa look."

"Functional, with bed, basket, possibility of application with various combinations."

"It is guaranteed for 10 years against corrosion with electrostatic paint. It is long-lasting electrostatic powder painted. And before painting, the metal is subjected to chemical cleaning. It is long-lasting up to 20 years in the home environment."

"It is trouble-free, it works with no problem with the perfect trio (intelligent design, continuous improvement and quality production)."

"Makes your job easier, easy and suitable for mass production."

ERH BASE 180	FOLDING BASE 180'LIK	900 x 2000 X 100	1800 x 2000

The most important advantages of the Foldable Bed Base at a glance

- ✓ Compact and powerful design
- ✓ Minimum volume, minimum packaging, maximum transportation advantage
- ✓ One person portability
- ✓ Easy transportation in narrow spaces, narrow passage areas and stairwells
- ✓ High engineering design that does not cause SSH problems.

SMC01 MODULE COMBINATION MECHANISM

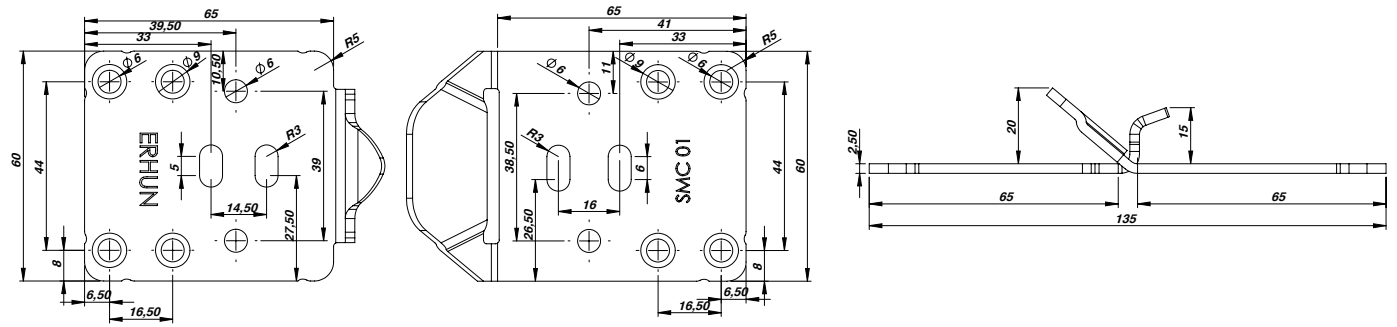

The most important advantages of the SMC 01 Module Combination Mechanism at a glance

- ✓ SMC01 is our practical, easy-to-install, economical, new and patented mechanism that can be used in modular armchairs and angular sofa sets. Thanks to the advanced design, it has a soft and zero gap locking performance so the modules cannot be separated from each other unless you want them to.
- ✓ All you have to do to connect the modules, is to bring the two modules side by side and make them fit together. To separate the connected modules, it will be sufficient to lift the module 2 cm upwards.
- ✓ Since the mechanism is not attached to the sides of the module, undesirable images such as cuts, holes, screws and bolts do not occur.
- ✓ Since a single point of assembly will be sufficient, one set can be used per module. More than one can be used optionally. Mechanism is galvanized and has non-corrosive properties. Module Combination Mechanism.

Product Codes and Dimensions

Product Code	Product Name	Mechanism Size
ERH.SMC.01	SMC01 MODULE COMBINATION MECHANISM	135mm x 60mm x 2,5mm

SMC02 MODULE COMBINATION MECHANISM

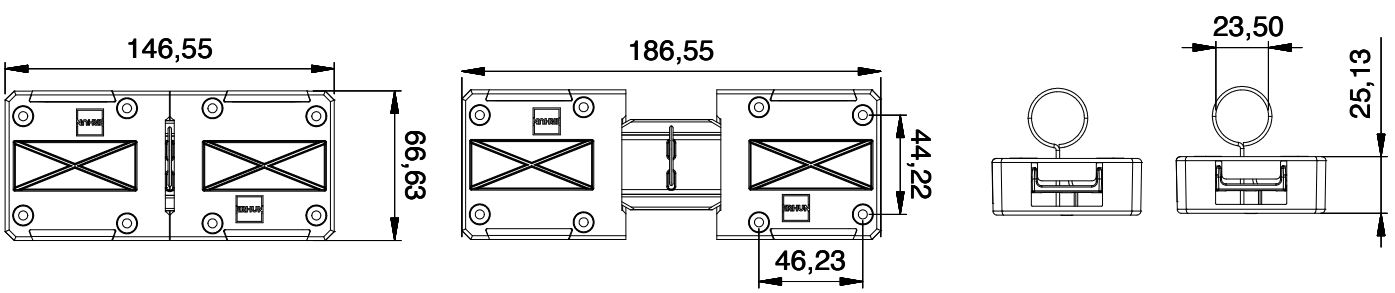

The most important advantages of the SMC 02 Module Combination Mechanism at a glance

- ✓ SMC02 is our practical, easy-to-install, economical, new and patented mechanism that can be used in modular armchairs and angular sofa sets. Thanks to the advanced design, it has a soft and zero gap locking performance so the modules cannot be separated from each other unless you want them to.
- ✓ Reliable and high locking performance thanks to its long bearing. Assembly in metalwork and wooden constructions without welding.
- ✓ High durability, working performance and long life cycle thanks to the reinforced plastic material. Multiple configuration possibilities thanks to the symmetrical bracket design.
- ✓ Since the mechanism is not attached to the sides of the module, undesirable images such as cuts, holes, screws and bolts do not occur.
- ✓ To connect the modules, simply bring the two modules side by side and combine them with the lock piece. You can separate the assembled modules by gently pulling the separation pin.
- ✓ Since the mechanism can be used as a bottom connection and can work with a gap of 3 cm between two parts, there is no problem of losing the sponge softness and fabric upholstery between the modules.
- ✓ Since a single point of assembly will be sufficient, one set can be used per module. More than one can be used optionally.

Product Codes and Dimensions

Product Code	Product Name	Mechanism Size
ERH.SMC.02	SMC02 MODULE COMBINATION MECHANISM	186,5mm x 66,5mm x 25mm

ADJUSTABLE SUPPORT LEG

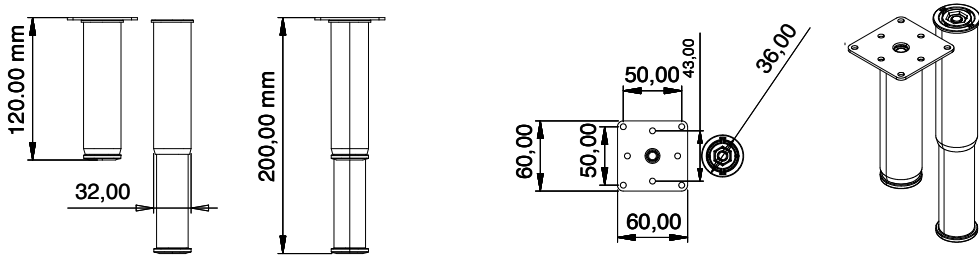

The most important advantages of the Adjustable Support Leg at a glance

- ✓ Aesthetic, elegant design. Strong performance.
- ✓ Wide measuring range (12-20 cm)
- ✓ Color option for multiple uses
- ✓ Production option from paintable ABS material
- ✓ Made of polypropylene material, which is considered the safest type of plastic.

Product Codes and Dimensions

Product Code	Product Name	Mechanism Size
ERH.AOA.P.01	ADJUSTABLE SUPPORT LEG (SCREWED)	120mm - 200mm
ERH.AOA.P.02	ADJUSTABLE SUPPORT LEG (FLANGED)	120mm - 200mm

BED CONNECTION BRACKET

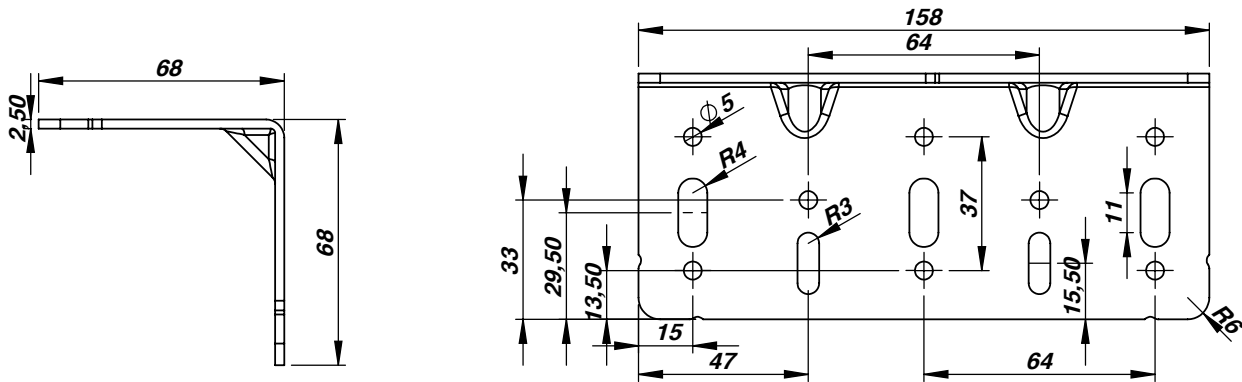

The most important advantages of the Bed Connection Bracket at a glance

- ✓ Possibility to tolerate production errors thanks to its slotted structure
Option to install with M6, M8 bolts and chipboard screws
- ✓ Continuous protection of the 90 degree rigid structure at connection angles thanks to the wide surface design.
- ✓ Minimizing the risks of loosening, cracking and separation thanks to the possibility of mounting with multiple screws or bolts.
- ✓ Providing corrosion resistance, aesthetic and industrial appearance with galvanized or electrostatic preference options

Product Codes and Dimensions

Product Code	Product Name	Mechanism Size
ERH.CRB.01	BED CONNECTION BRACKET	158mm x 68mm x 2,5mm

LASER CUTTING

Foot - Handle - Equipment and Accessories

Special Designs, Millimetric Production.

- ✓ CNC Cutting
- ✓ Press Brake Twisting
- ✓ Welding Work
- ✓ Surface Cleaning
- ✓ Chrome Plated
- ✓ Static Paint

The most important advantages of our Accessories at a glance

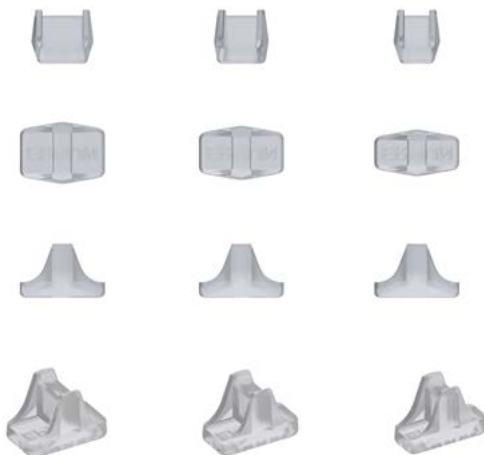

- ✓ Sheet metal, stainless, aluminum processing feature with maximum precision up to 05-15 mm with our state-of-the-art fiber optic laser
- ✓ R&D support in initial product designs
- ✓ Production of nickel chrome plated and electrostatic powder painted furniture equipment

FOREVER

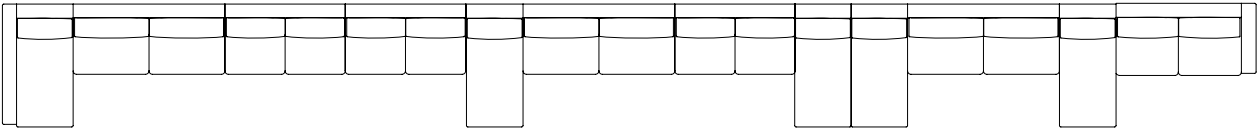

UZBEK ZERO COMBINATIONS

OZBEK ZERO CAN BE APPLIED IN ZERO MECHANISM WITH MOVABLE HEAD AND FIXED BACK CUSHION.

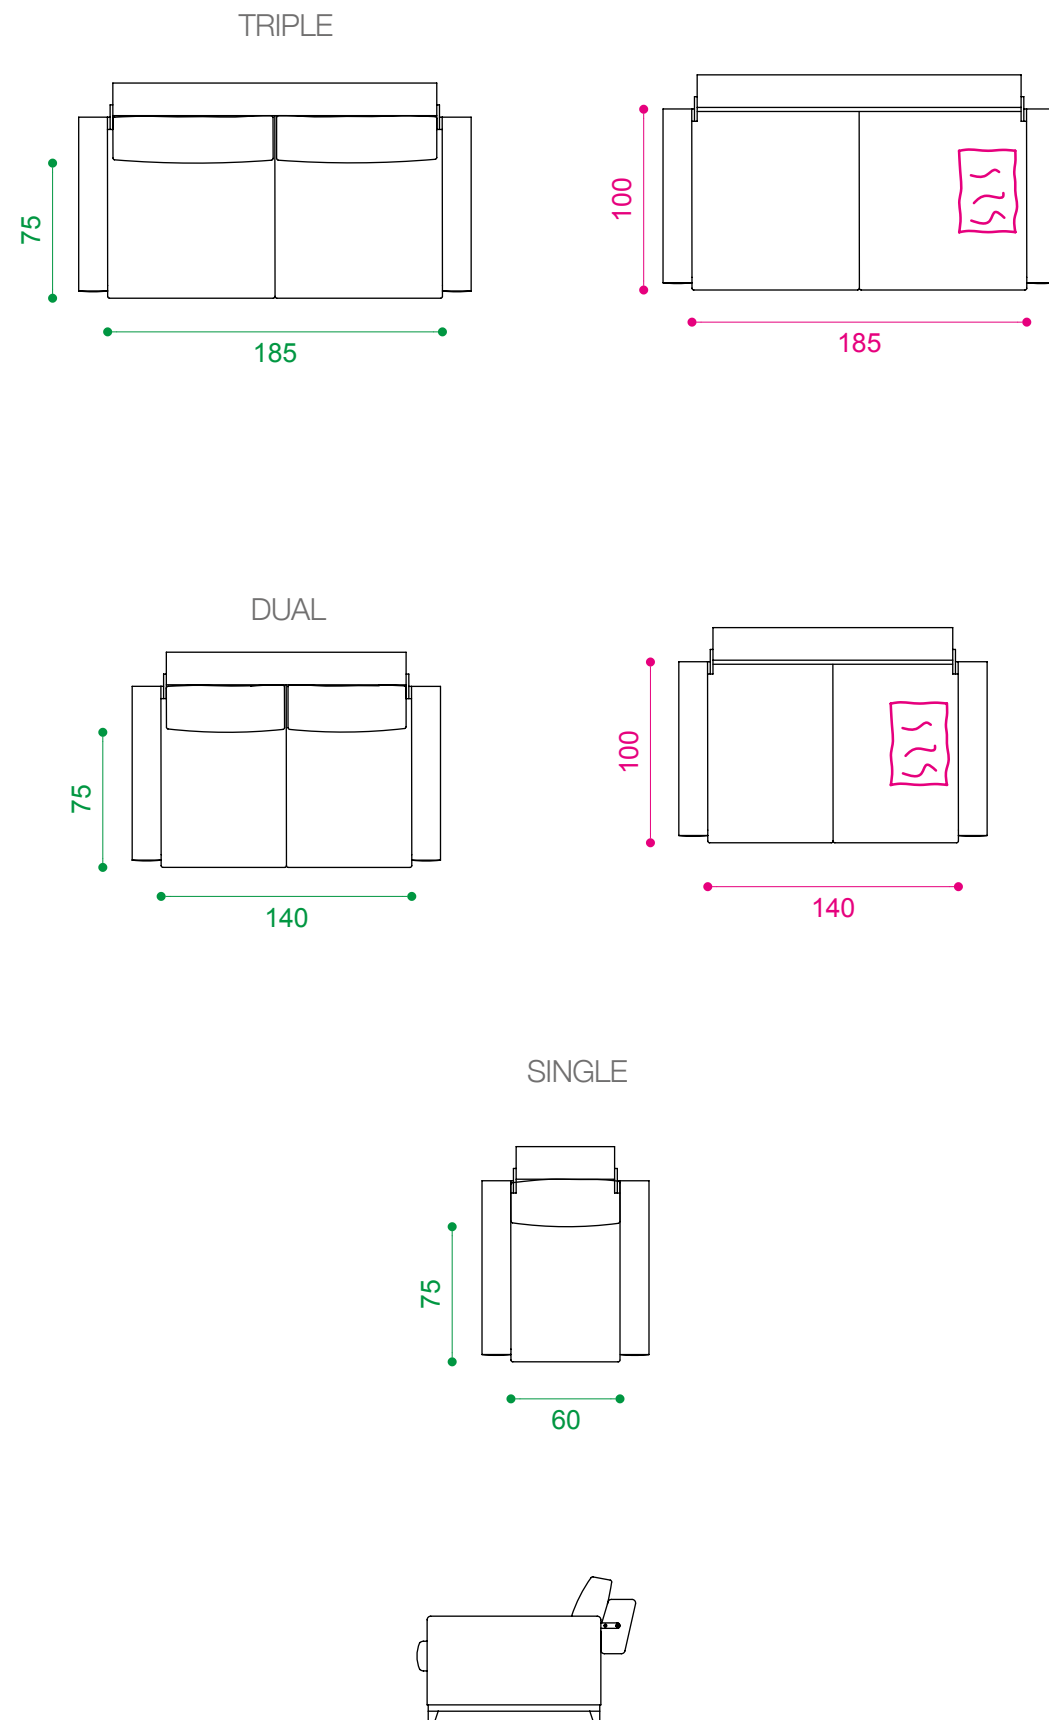

EASE OF DISASSEMBLY ARMREST

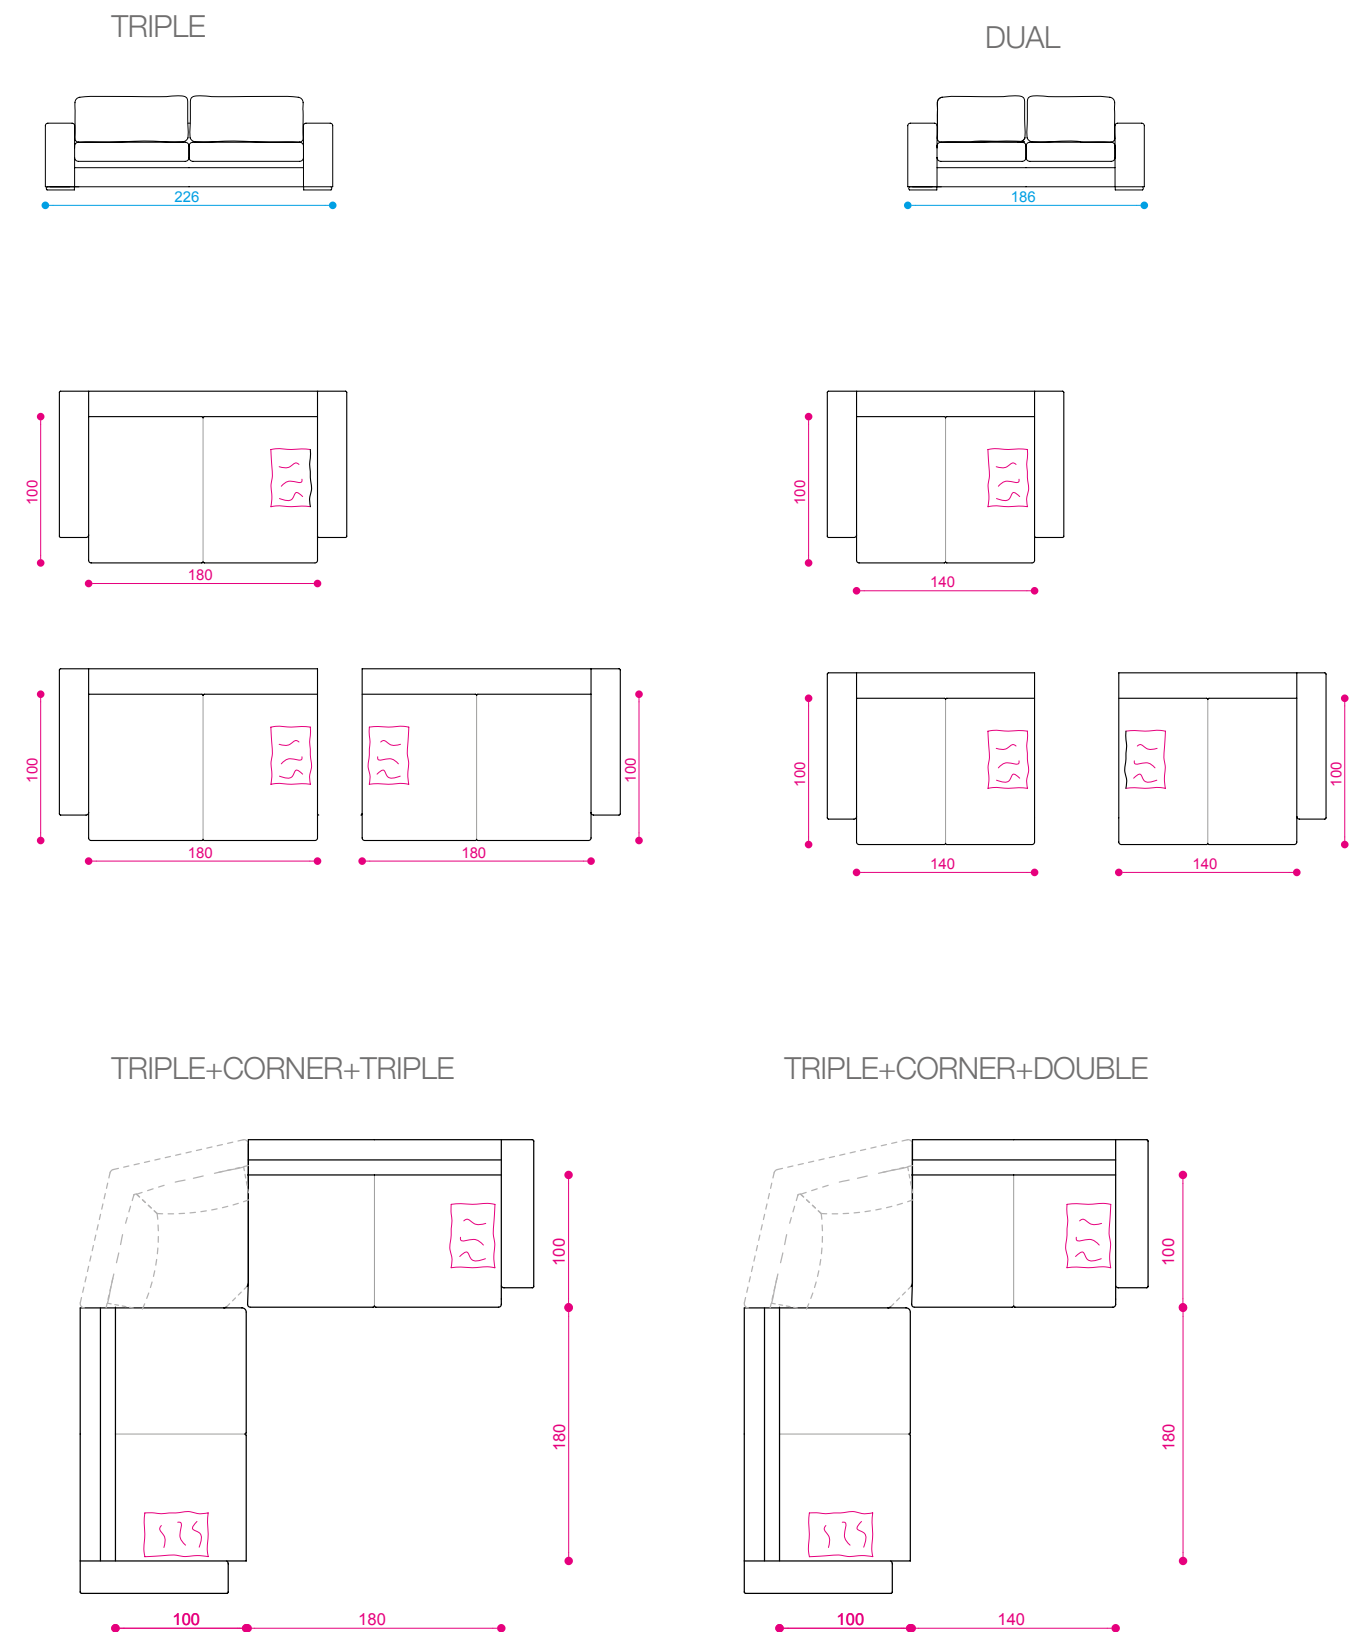

YOU CAN ADD ALL THE MODULES YOU MAKE WITH OUR MECHANISM, IN THE LENGTH YOU WANT AND IN THE ORDER.

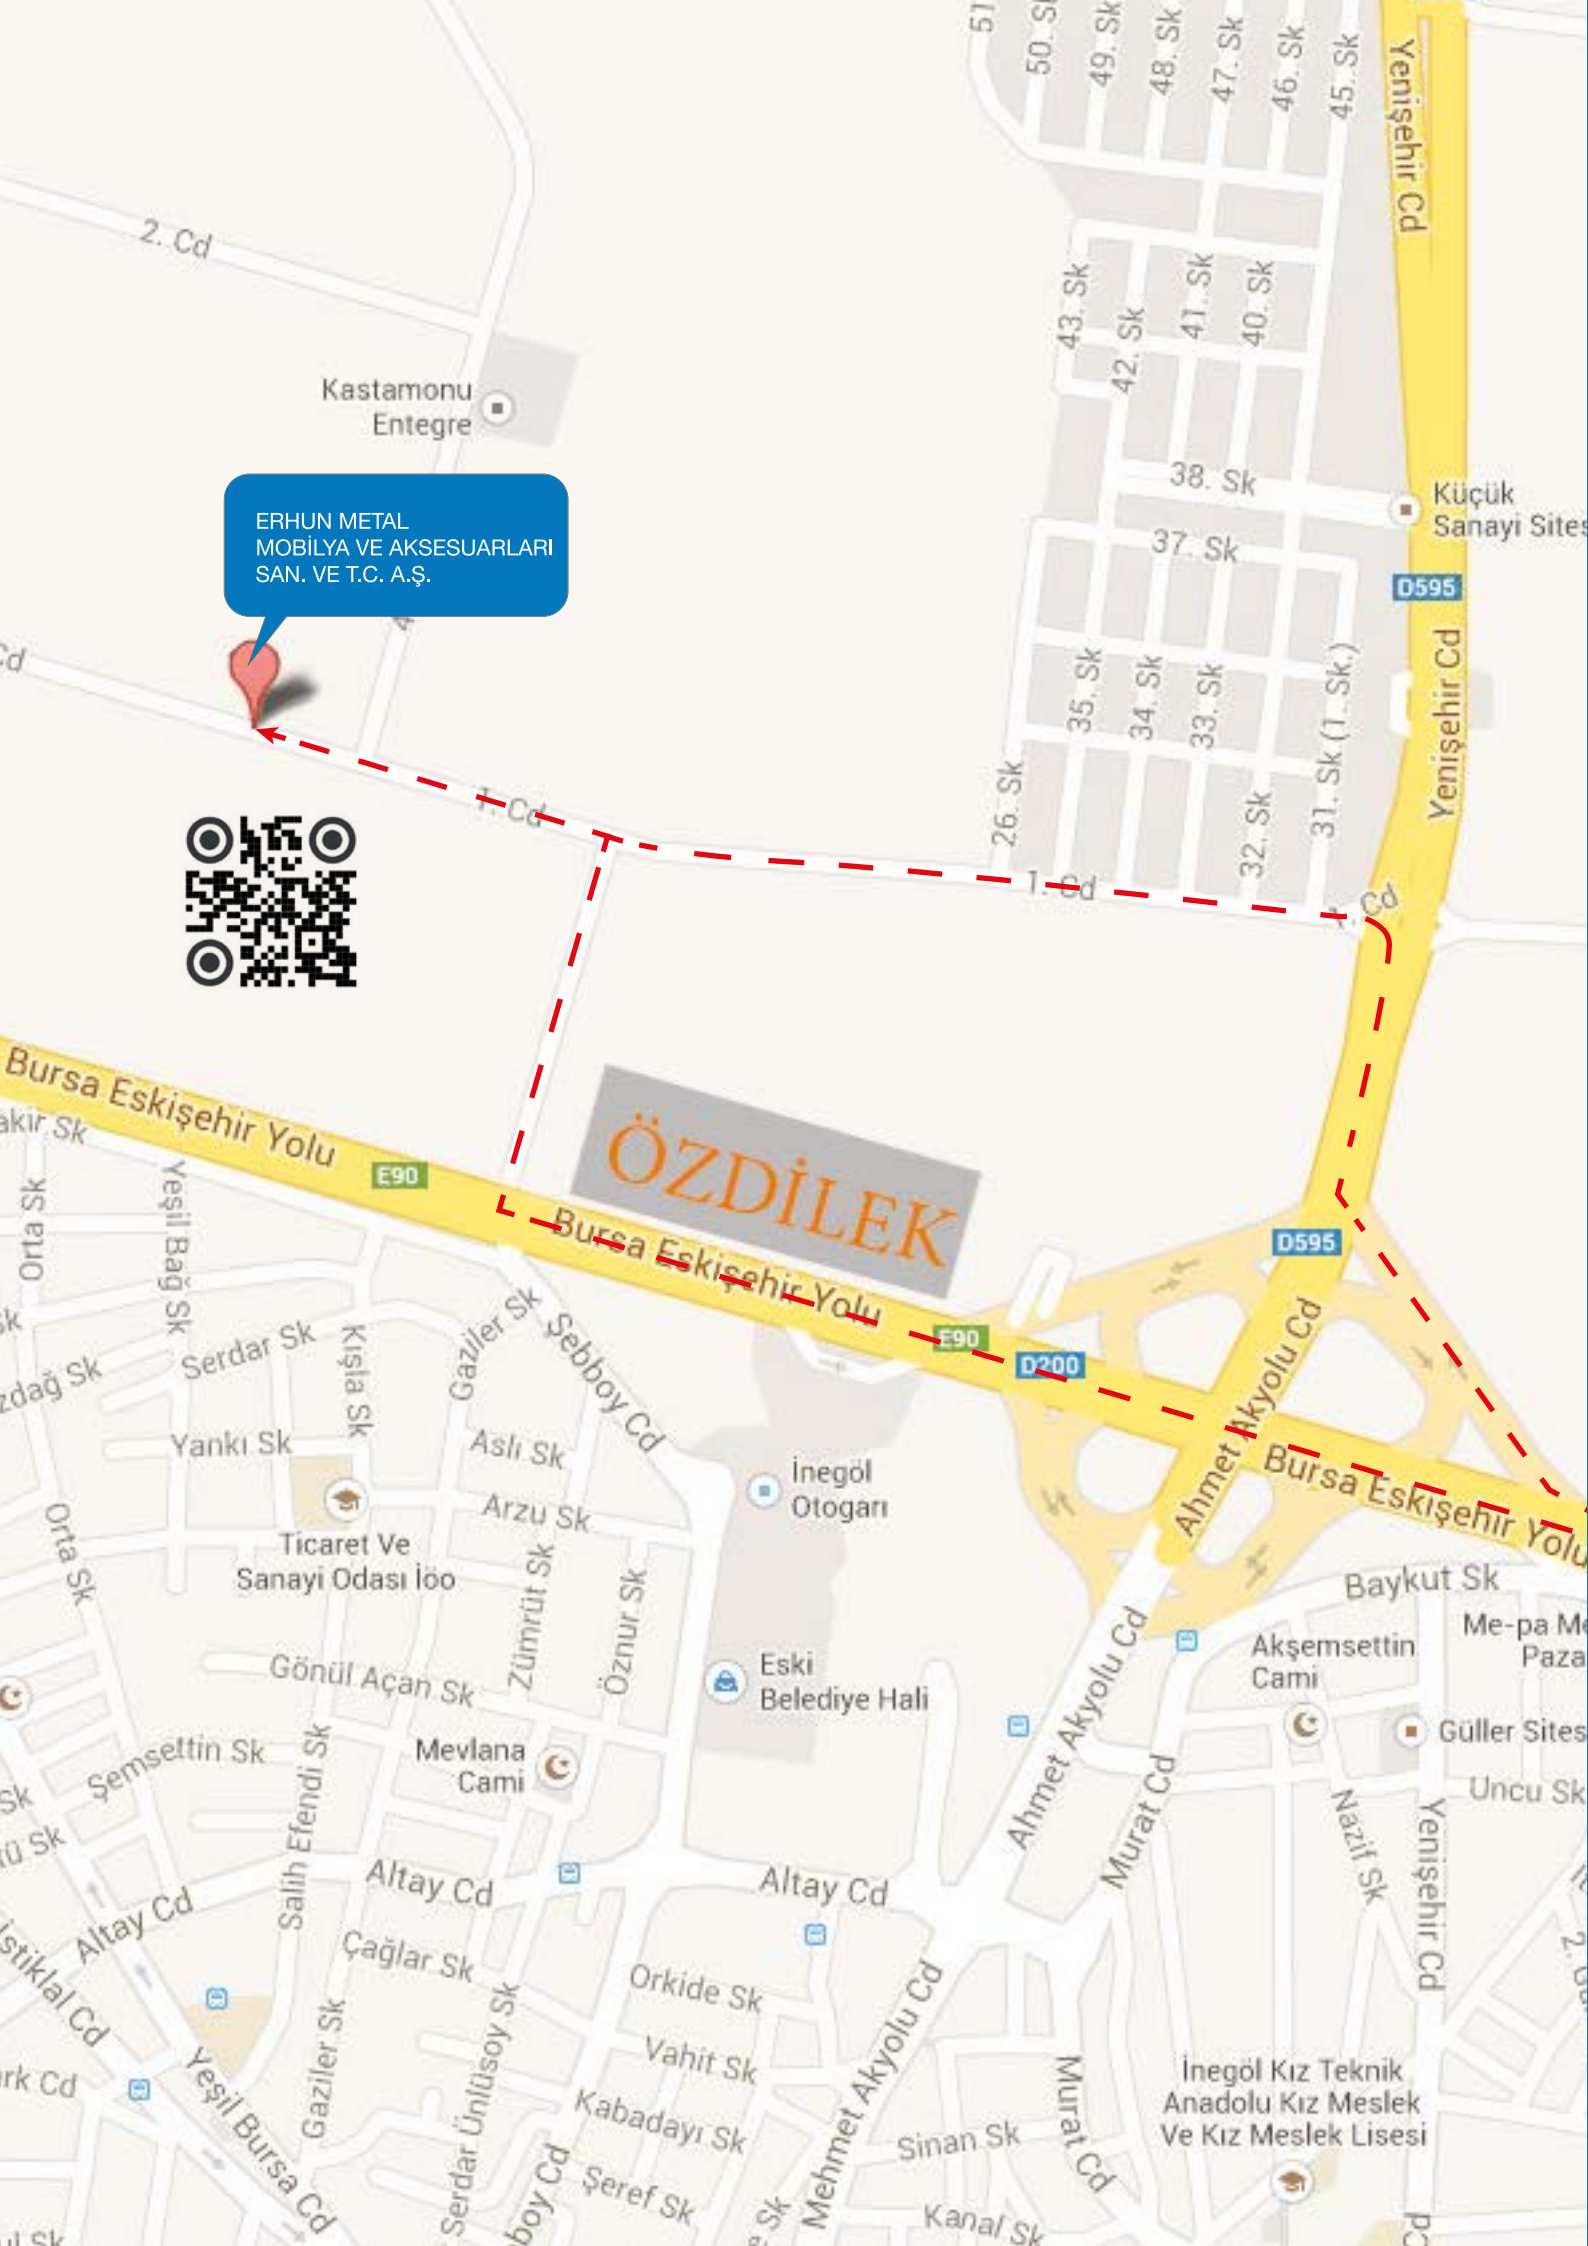

CSS MECHANISM COMBINATIONS

SINGLE-BED MECANISM COMBINATIONS

NOTE: THE PRODUCTION OF THE MODULES DRAWN WITH DROPPED LINES IS AT THE SALE OF THE BUYERS.
